THE MONDAVI SHOW HOME

When Rob and Lydia Mondavi—the fourth generation of the winemaking family—designed their home away from home, they turned to Trex for high-style, high-performance products they knew would last. It's a place perfect for the Mondavis' two favorite things: entertaining and family. Nestled in the heart of South Carolina lowcountry, Trex helps the home feel right at home among the marshy tides just feet from the back screen door—withstanding whatever the salt air brings.

THERE'S YOU.

THERE'S THE SPACE
AROUND YOUR HOUSE.

AND THEN THERE'S TREX®.

And with a little imagination,
amazing things can happen
in between.

As you'll see, Trex is more than just a creator of great decks with proprietary technology. In fact, the real possibilities begin when what you think you know turns into what you could never imagine. Tough-as-nails boards that become a perfect bench. Tropical deck colors that practically lull landlocked homes to the water's edge. Brilliant new storage ideas for making outdoor rooms even roomier.

We're all about knowing what's next, then inspiring you to make it yours with all the colors, options and configurations your dreams can handle.

Trex. It's for the unexpected.

Even our most specific features
are engineered for beautiful
outdoor living.

INDUSTRY-LEADING WARRANTIES

As the leader in outdoor living, it's only fitting that our decades-long warranties outlast all others.

SHELL TECHNOLOGY

Trex decks are wrapped in a high-performance shell that resists fade, stains, mold, mildew, insects and natural weathering.

FASTENERS

The Trex Hideaway® Hidden Fastening System is an option with grooved-edge boards for perfectly consistent spacing and no visible screws on top.

ALWAYS GREEN

Our products are made from recycled materials, and our processes? As eco-friendly as they come.

Trex was built upon green principles and values, from our innovative materials to our sustainable processes. In fact, in all our years in the decking and railing business, we haven't felled a single tree. **Not one.**

EVERY 500-SQUARE-FOOT TREX DECK
contains over **140,000**
RECYCLED PLASTIC BAGS,
MAKING US ONE OF THE
LARGEST PLASTIC RECYCLERS
IN THE U.S.

Trex saves
400 MILLION
POUNDS
of plastic and wood from landfills each year

ALL TREX DECKING
is made from
95% RECYCLED
MATERIALS

Our decking, in addition to reclaimed wood and sawdust, used to be plastic packaging. (With every 500-square-foot Trex deck containing over 140,000 recycled plastic bags, we happen to be one of the largest plastic recyclers in the U.S.) Most of our products are made almost completely from recycled materials, which means Trex saves 400 million pounds of plastic and wood from landfills each year.

Plus, Trex strives to make its proprietary manufacturing methods as green as possible. We recycle almost 100% of our factory refuse back into the manufacturing line, and some plant hydraulics are even powered by vegetable oil. So our decking, railing and steel deck framing contribute to LEED points on any building.

At Trex, we do the extra work to make everyone's leisure time that much more pleasurable. And we've been this way for more than 20 years—well before green was a buzzword.

Why?

Because, in the end, all of us want to look out on our decks and know that we've done our part.

FIVE STEPS *to get your deck done*

Inspired by open skies, fair breezes and sunsets, we find it best to keep things simple. These five easy decisions will help you get started on the path to a brand-new outdoor living space—made even easier with the cutting-edge tools available on [trex.com](https://www.trex.com).

decking: Enhance in Beach Dune

1

Size and Shape

Whether you need room for a grill or a row of chaise lounge chairs, you'll want to plan the size and shape of your deck around how you'll use it. And size has a big impact on deck cost, so be sure to use our [ONLINE COST CALCULATOR](#) tool for a helpful estimate as you plan.

2

Substructure

Though your deck is more than the sum of its parts, some of its parts have to do a little extra heavy lifting, and a sturdy substructure can ensure its stability. Consult our [DECK PLANNING BASICS PAGE](#) for critical checklists and considerations before getting started.

3

Select Your Decking

With so many colors and grain patterns available, this can be the hardest part of the decision-making process. Browse our inspiration galleries for some ideas, and [ORDER SAMPLE BOARDS](#) from [TREX.COM/SHOP](https://www.trex.com/shop) to look, feel, test and compare before you start building.

4

Choose Your Railing

Your railing design is arguably the best chance to let your style shine through and custom-tailor your outdoor aesthetic, so make sure you don't wait until the last minute to think about it. Our [RAILING IPAD APP](#) is the best resource for testing out your designs before getting started.

5

Add the Finishing Touches

Finally, it's time for the icing on the cake—the furniture, lighting, storage and other bits and bobs that make your deck truly yours. These accessories are designed to fit seamlessly with the rest of our decking and railing lines. Ready to build? You can find a [TREPPO® CONTRACTOR](#) and your nearest Trex dealer on our website to take it from here.

Visit [trex.com/5steps](https://www.trex.com/5steps) for more information on these important steps and a host of other resources to make your deck build easier.

Think about it: if you're going to invest in a long-lasting deck, don't you want its support to last just as long?

When you daydream about your dream deck, chances are you haven't given much thought to what lies beneath it. Even though your deck's substructure may not make the family photos, it's actually the most important part of your new outdoor space. Trex Elevations®, our system of durable, triple-coated steel beams, joists and tracks, creates the strongest, straightest and, yes, greenest structures down below.

Trex Elevations® STEEL DECK FRAMING

High performance

- » Triple-coated steel offers consistency, durability and reliability that other materials can't
- » Rot- and termite-proof steel lasts much longer than wood
- » Non-combustible material with a Class 1A fire rating offers peace of mind

- » CCRR-0186 code compliance research report approves Trex Elevations for exterior use

- » Neutral finish blends with most decking colors making the substructure less visible from above
- » Longer spans allow for fewer posts and less obstructed views
- » Consistent dimensions mean a level run from house to edge

Trex through and through

- » Contains a minimum of 25% recycled steel and is a 100% renewable resource
- » Works beautifully with the Trex RainEscape drainage system
- » Backed by the Trex 25-Year Limited Residential Warranty*

UNPARALLELED BEAUTY

With high-traffic technology and a natural-looking wood-grain finish, Transcend decking is specially designed to look ageless—even decades after it is installed. Featuring rich, nature-inspired colors, our decking pairs seamlessly with our railing options to culminate in the deckscape of your dreams.

HASSLE FREE

No sanding. No staining. No painting. No kidding. In fact, the only major piece of maintenance your Transcend decking and railing require is washing with soap and water or a pressure washer,* compliments of the protective Transcend shell technology.

FADE, STAIN, SCRATCH AND MOLD RESISTANT

Mother Nature's worst continues to bring out our best. Whether a nasty nor'easter or a scorching Arizona summer, Transcend maintains its vibrant color and luxurious finish. Same goes for man-made disasters. Wet planter pots, red-wine rings and dragged chaise lounges are no match for the Transcend fade-, stain-, scratch- and mold-resistant shell.

EARTH FRIENDLY

Transcend decking is made from 95% recycled materials, from reclaimed wood and sawdust to plastic packaging. And our railing contains at least 40% recycled material.

Like what you don't see? Trex Hideaway Hidden Fasteners are sub-surface clips that install our decking boards without traditional deck screws, leaving only a smooth, unfettered finish behind.

RAILING— a lot easier than it looks

Selecting the right railing is pretty easy, but each Trex railing line is a little different. Please read the system descriptions at the top of each product section so you can choose exactly which railing components you need to complete your design. For additional guidance, the chart to the left depicts each railing system's components.

Trex Company, Inc. (hereinafter "Trex") warrants to the original purchaser ("Purchaser") that, for the period of time set forth in the following sentence, under normal use and service conditions, Trex® products shall be free from material defects in workmanship and materials, and shall not split, splinter, rot or suffer structural damage from termites or fungal decay. The term of such warranty shall be twenty-five (25) years from the date of original purchase for a residential application, and ten (10) years from the date of original purchase for a commercial application. If a defect occurs within the warranty period, Purchaser shall notify Trex in writing and, upon confirmation by an authorized Trex representative of the defect, Trex's sole responsibility shall be, at its option, to either replace the defective item or refund the portion of the purchase price paid by Purchaser for such defective item (not including the cost of its initial installation).

Notwithstanding the foregoing, (a) the term of the warranty for the LED lights and housing for Trex® DeckLighting™ shall be seven (7) years, the term of the warranty for the LED lights and housing for Trex® LandscapeLighting™ shall be five (5) years, and the term of the warranty for the dimmer, timer and transformer for both shall be three (3) years, in each case provided that a Trex transformer is used (with no warranty on any components if a Trex transformer is not used), and any other parts or accessories shall not be warranted; (b) with respect to hardware for the Trex Surroundings® gate (gate frame, hinges and screws), the term of the warranty shall be five (5) years, (c) with respect to Trex Decorative Balusters, the term of the warranty covering the paint coating shall be ten (10) years, and shall be prorated in the following manner: 100% replacement for the first five (5) years; and 50% replacement for the next five (5) years, and (d) this warranty shall not apply to Trex Elevations® steel deck framing, Trex Reveal® aluminum railing and TrexTrim™ (which each have separate warranties).

For purposes of this warranty, a "residential application" shall refer to an installation of the Product on an individual residence, and a "commercial application" shall refer to any installation of the Product other than on an individual residence.

THIS WARRANTY SHALL NOT COVER AND TREX SHALL NOT BE RESPONSIBLE FOR COSTS AND EXPENSES INCURRED WITH RESPECT TO THE REMOVAL OF DEFECTIVE TREX PRODUCTS OR THE INSTALLATION OF REPLACEMENT MATERIALS, INCLUDING BUT NOT LIMITED TO LABOR AND FREIGHT.

With respect to a residential application, this warranty may be transferred one (1) time, within the five (5) year period beginning from the date of original purchase by the Purchaser, to a subsequent buyer of the property upon which the Trex products were originally installed. With respect to a commercial application, this warranty is freely transferable to subsequent buyers of the property upon which the Trex products were originally installed.

To make a claim under this limited warranty, Purchaser, or the transferee, shall send to Trex, within the warranty period referred to above, a description of the claimed defect and proof of purchase, to the following address:

Trex does not warrant against and is not responsible for, and no implied warranty shall be deemed to cover, any condition attributable to: (1) improper installation of Trex products and/or failure to abide by Trex's installation guidelines, including but not limited to improper gapping; (2) use of Trex products beyond normal use and service conditions, or in an application not recommended by Trex's guidelines and local building codes; (3) movement, distortion, collapse or settling of the ground or the supporting structure on which Trex products are installed; (4) any act of God (such as flooding, hurricane, earthquake, lightning, etc.), environmental condition (such as air pollution, mold, mildew, etc.), staining from foreign substances (such as dirt, grease, oil, etc.), or normal weathering (defined as exposure to sunlight, weather and atmosphere which will cause any colored surface to gradually fade, chalk, or accumulate dirt or stains); (5) variations or changes in color of Trex products; (6) improper handling, storage, abuse or neglect of Trex products by Purchaser, the transferee or third parties; or (7) ordinary wear and tear.

No person or entity is authorized by Trex to make and Trex shall not be bound by any statement or representation as to the quality or performance of Trex products other than as contained in this warranty. This warranty may not be altered or amended except in a written instrument signed by Trex and Purchaser.

UNDER NO CIRCUMSTANCES WILL TREX BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, WHETHER SUCH DAMAGES ARE SOUGHT IN CONTRACT, IN TORT (INCLUDING BUT NOT LIMITED TO NEGLIGENCE AND STRICT LIABILITY) OR OTHERWISE, AND TREX'S LIABILITY WITH RESPECT TO DEFECTIVE PRODUCTS SHALL IN NO EVENT EXCEED THE REPLACEMENT OF SUCH PRODUCTS OR REFUND OF THE PURCHASE PRICE, AS DESCRIBED ABOVE.

TREX TRANSCEND®, TREX ENHANCE®, TREX SELECT® AND TREX® UNIVERSAL FASCIA LIMITED FADE & STAIN WARRANTY

For the term set forth below, Trex Company, Inc. (hereinafter "Trex") warrants to the original end-user purchaser (the "Purchaser") that Trex Transcend® decking, porch or fascia, Trex Enhance® decking or fascia, Trex Select® decking or fascia or Trex® Universal Fascia, as the case may be (the "Product") will perform, under normal use and service conditions, as follows:

Term of Warranty: The term of this warranty shall begin on the date of original purchase, and shall end (1) twenty-five (25) years thereafter for a residential application of the Product, and (2) ten (10) years thereafter for a commercial application of the Product.

Residential/Commercial Application: For purposes of this warranty, a "residential application" shall refer to an installation of the Product on an individual residence, and a "commercial application" shall refer to any installation of the Product other than on an individual residence.

Fade Resistance: The Product shall not fade in color from light and weathering exposure as measured by color change of more than 5 Delta E (CIE) units.

The Product is designed to resist fading. No material is fade proof when exposed to years of UV exposure and the elements. The Product is designed to resist fading, and will not in any event fade by more than 5 Delta E (CIE) units.

Stain Resistance: The Product shall be resistant to permanent staining resulting from spills of food and beverage items including ketchup, mustard, salad oils, tea, wine, coffee, fruit punch, barbecue sauce, grease, sodas and other food and beverage related items that would typically be present on a residential deck, or mold and mildew naturally occurring in the environment, provided that such substances are removed from the Product with soap and water or mild household cleaners within one (1) week of exposure of the food or beverage to the surface or first appearance of the mold and mildew.

Notwithstanding the foregoing, Trex does not warrant that the Product is stain-proof, and does not warrant stain resistance resulting from spilled or otherwise applied food and beverage substances which are not properly cleaned as provided above within one (1) week of exposure. In addition, materials not covered in the stain resistant warranty include abrasive compounds of acidic or basic pH, paints or stains, strong solvents, metallic rust or other abnormal deck use items, and non-food and non-beverage substances, including but not limited to, biocides, fungicides, plant food, or bactericides. Mold and mildew can settle and grow on any outdoor surface, including this Product. You should periodically clean your deck to remove dirt and pollen that can feed mold and mildew. This warranty does not cover mold and mildew which is not properly cleaned as provided above within one (1) week of first appearance.

Standard Trex Company Limited Warranty: This warranty is in addition to the standard Trex Company Limited Warranty that applies to all Trex products.

Transferability: With respect to a residential application, this warranty may be transferred one (1) time, within the five (5) year period beginning from the date of original purchase by the Purchaser, to a subsequent buyer of the property upon which the Trex products were originally installed. With respect to a commercial application, this warranty is freely transferable to subsequent buyers of the property upon which the Trex products were originally installed.

EXCLUSIONS FROM WARRANTY COVERAGE:

Exposure to Heat: Direct or indirect contact with extreme heat sources (over 275 degrees) may cause fading and may damage the surface of the Product, and any effects of such exposure are expressly excluded from coverage under this warranty.

Surface Damage: Never use metal shovels or sharp-edged tools to remove snow and ice on the surface of the Product. If the surface of the Product is damaged or punctured, this warranty will be voided.

Paint or Other Materials Applied to the Product: If paint or other coating materials are applied to the Product, this warranty will be voided.

Railing: This warranty does not cover Trex Transcend® or Trex Select® railing components.

Other Exclusions: This warranty shall not cover any condition attributable to: (1) improper installation of the Product and/or failure to abide by Trex's installation guidelines, including but not limited to improper gapping; (2) use of the Product beyond normal use or service conditions, or in an application not recommended by Trex's guidelines and local building codes; (3) movement, distortion, collapse or settling of the ground or the supporting structure on which the Product is installed; (4) any act of God (such as flooding, hurricane, earthquake, lightning, etc.); (5) improper handling, storage, abuse or neglect of the Product by Purchaser, the transferee or third parties; (6) any fading or staining not on the walking surface of the Product (i.e., the underside or the ends of the Product); or (7) ordinary wear and tear.
